

## RNUT

RTN

A diagram showing a 282-degree angle. The angle is formed by two rays meeting at a vertex. The interior of the angle is divided into three regions by two additional rays. The top region is labeled 44, the middle region is labeled 194, and the bottom region is labeled 44. Tick marks are present on all four rays: two single ticks on the top and bottom rays, and one double tick on each of the two interior rays.
